You ID Me Blueprint for Success

# You ID Me Affiliate Blueprint for Success

## 6. Use Social Proof 💬

**If someone else says it's great, it must be.**

---

## Introduction

People trust people. More than adverts, more than polished sales pages—**real opinions from real users** carry the most weight.

That's what social proof is. It's your most powerful ally.

---

## 1. Show That Others Trust It

When people see that others have had a good experience, they think:
*"Well, if it works for them, maybe it'll work for me too."*

✅ Google reviews (there are around 400 genuine You ID Me customer reviews)
✅ Messages from friends or customers
✅ Positive comments on posts
✅ Someone saying "that's clever" or "I love this"

📸 Screenshot it. Save it. Use it.

---

## 2. Post & Share It Naturally

Try sharing these kinds of things on social media or in chats:

- A photo of someone using their You ID Me product
- A simple message: *"A customer messaged me this earlier 👇"*
- "A lady at my church told me she feels safer with this tag!"

⚠️ It doesn't have to be flashy—**authentic > perfect.**

### 3. Ask For It!

Just helped someone buy a tag for their child with epilepsy? Ask how they feel about it a week later.

Then ask:
🗨️ "Would you mind if I shared that with others who are thinking about it too?"

Most will say yes. That's a story worth gold.

---

### 3 Key Takeaways

- Use real feedback, quotes, or screenshots—it builds instant trust.
- Keep it natural and human—no need for polish.
- Don't be shy to ask happy customers for a line or two.
